

## VILLAGE OF PAW PAW

### Commercial & Industrial Energy Efficiency Program

### 2017 Incentive Application

Ready to start your project? Follow these 3 simple steps.

#### Step #1: Request Pre-Approval

To ensure that your project is eligible and to reserve funds, please complete, sign and submit:

1. The Pre-Approval Agreement (found on page 2 of this application), completed and signed.
2. The worksheet(s) that are applicable to your project, completed (found on pages 4-10 of this application).
3. Itemized quote/proposal with model numbers from your contractor.
4. If this project is for new construction, please check the New Construction box in the Building Use section on page 2.
5. All Projects are subject to inspection before and/or after work is performed.
6. All projects must receive a reservation letter before work is performed.

#### Step #2: Complete Your Project

If your project meets the pre-approval criteria, you will receive a letter indicating funds have been reserved. Following the specifications listed in this application, install your equipment within 90 days. Applications that are not completed within 90 days from the date on the acceptance letter are subject to cancellation. All equipment must be installed and operational within 90 days of the date on the acceptance letter or by November 30, 2017, whichever date comes first.

#### Step #3: Get Your Cash Incentive

Once your project is complete, it's time to request your cash incentive. Within 30 days of project completion, you must submit:

1. The Payment Approval Agreement (found on page 3 of this application), completed and signed, and
2. The itemized invoice(s) for materials and any applicable external labor costs, including the following:
  - Contractor's name and contact information
  - Customer's name and contact information
  - Date of invoice
  - Line item cost for each product
  - Quantities of each product
  - Complete product model numbers
  - Labor (and other) expenses listed separately from product costs
  - Total invoice amount

**Please submit your documents  
one of three ways:**

**Fax** 517-203-0658

**Email** [energysmart@franklinenergy.com](mailto:energysmart@franklinenergy.com)

**Mail** Energy Smart – Village of Paw Paw  
1400 Abbot Road, Suite 400  
East Lansing, MI 48823

# 2017 Energy Smart Commercial & Industrial Program

## Pre-Approval Agreement

### Pre-Approval Agreement – Step #1

Please complete and submit this page, along with the appropriate worksheet(s) and quotes with model numbers from your contractor, *before you begin your project*. If you plan to install the equipment yourself (as opposed to hiring a contractor to do so), please submit a quote/proposal for the cost of the equipment from a supplier or distributor. If your project meets the pre-approval criteria, you will receive a letter indicating the funds have been reserved. You can then proceed with completing your project, as described in Step #2 on page 1 of this application.

# 2017 Energy Smart Commercial & Industrial Program Lighting Worksheet

## Lighting Worksheet (one-for-one unit replacement)

All lighting projects are required to comply with the IESNA recommended lighting levels or local code.

Measure	Specs	Quantity	\$ / Unit	Total
<b>Screw-In Lamps</b>				
CFL (less than 30W)	Replace an incandescent lamp with ENERGY STAR® CFL		\$1.50 / Lamp	
CFL (between 30W and 115W)			\$5 / Lamp	
Specialty CFL (Dimmable, 3-Way, Flood)			\$8 / Lamp	
LED Lamp (replacing 1–49W incandescent)	Replace an incandescent lamp with ENERGY STAR LED		\$4 / Lamp	
LED Lamp (replacing 50–79W incandescent)			\$10 / Lamp	
LED Lamp (replacing 80–100W incandescent)			\$15 / Lamp	
LED Lamp replacing screw base CFL			\$2 / Lamp	
LED MR16 Lamp (less than 10W)			\$5 / Lamp	
LED PAR Lamp (less than 20W)			\$12.50 / Lamp	

<b>Interior Fixtures</b>				
LED Downlight Fixture	Replace incandescent lamped fixture with fixture designed for pin-based CFLs or LED.		\$20 / Fixture	
LED Exit Signs	Replacement or retrofit of an incandescent or fluorescent exit sign with LED.		\$12.50 / Fixture	

<b>Interior Linear Fluorescent Custom Lighting</b>				
Incentives are eligible for replacement of interior linear fluorescent fixtures/retrofits (i.e.: T12 to HPT8). <b>Incentives are \$0.05/kWh and \$0.08/kWh for LED.</b> Payback Period must be greater than or equal to one (1) and less than or equal to eight (8) years to receive the incentive. All new fixtures and retrofits must be ENERGY STAR, DesignLights Consortium®, or CEE <sup>SM</sup> listed.

<b>Total:</b>	<b>Watts Saved:</b>	<b>Incentive:</b>

Exterior Lighting		
Incentives are eligible for the replacement or retrofit of an exterior fixture with an induction, LED, or T8/T5 linear fluorescent fixtures which have a reduced input wattage of at least 40%. Incentives are per fixture and are based on the nominal lamp wattage of the original fixture. Incentive is for fixtures that operate less than 24 hours per day. Existing wattages must come off of the Standard Wattage Table below. <b>Incentive is \$0.35 per Watt Reduced.</b>

<b>Lighting Worksheet Incentive TOTAL:</b>	\$

Controls Worksheet

Measure	Specifications	Quantity	\$ / Unit	Total
<b>HVAC Controls</b>				
Programmable Thermostat (Gas Heat)	Must control central AC and replace a non-programmable thermostat.		\$20 / Unit	
Building Temperature Controls	Must control central AC and replace a non-programmable building management system. The new system must offer time of day controls and a minimum temperature setback of 8 degrees (heating/cooling).		\$45 / 1,000 sq ft	
Optimized Snow Melt Controls	Snow melt system must shut down completely when no precipitation is present. Controller must monitor forecasts and raise the slab temperature to 32 degrees F eight hours before expected precipitation. A slab moisture sensor must be used to signal controller to raise slab temperature to 40 degrees F when precipitation is present.		\$9 / 1,000 sq ft	
Occupancy Sensor Control for HVAC	Installation of new controls to an existing EMS system which automatically switched the HVAC system to occupied and unoccupied mode based on occupancy sensors. Provide wiring schematic at the time of submitting pre-approval.		\$30 / 1,000 sq ft	
Constant Volume AHU to VAV	Converting constant volume air handling system to a variable air volume. Must have reheat and supply at least four zones.		\$450 / 1,000 sq ft	
Air Side Economizer	Available for air handling units supplying air conditioning which have inoperable economizer controls.		\$10 / 1,000 sq ft	
Critical Zone Reset Control	Available for existing VAV air handling systems which add critical zone reset (static pressure reset) controls. At a minimum, airflow at each VAV box must be monitored and adjust control sequences must be in accordance to ASHRAE 90.1.		\$15 / 1,000 sq ft	
Hotel GREM Controls - A/C with Electric Heat	For sensors which automatically control HVAC equipment. Incentive is for new controls only and is offered per room installed.		\$65 / Unit	
Hotel GREM Controls - A/C with Gas Heat			\$10 / Unit	

<b>Computer Controls</b>				
Network Power Management Software	New installation must allow centralized control at the server level of the power management settings (sleep mode and shutdown) of desktop computers on a distributed network and must report energy savings.		\$10 / PC controlled	

<b>Lighting Controls</b>				
Occupancy Sensors which control ≤ 500W	Sensors which automatically turn lights on when occupancy is detected and automatically turn lights off when no movement is detected after a set length of time. Cannot be used in conjunction with instant start ballast.		\$20 / Sensor	
Occupancy Sensors which control > 500W			\$50 / Sensor	
Daylight Harvesting Sensor	The controls can be on/off, stepped or dimming and must vary the light output based on the level of sunlight received. The floor plan and control schedule must be submitted. Cannot be used with occupancy sensor.		\$0.09 / sq ft	
Central Lighting Control	For systems that utilize building automation to control the lights based on a set schedule. Incentive for occupancy sensors or daylight sensor controls cannot be received on the same fixtures. Control schedule and floor plans must be submitted.		\$0.06 / sq ft	

<b>Variable Frequency Drives (VFD)</b>				
Drives must be used in pumping or air handling applications related to HVAC or for process pumping applications. VFDs must be automatically controlled by a variable signal and have load diversity that will result in savings through motor speed variation. Redundant unit, back-up units and replacements of existing VFDs do not qualify. For the HVAC Fan and HVAC Pump incentives, the motor size must be ≤ 100 HP and the annual hours must be > 1,800 hours. For the Process Pump incentive, the motor size must be ≤ 50 HP and the annual hours must be > 2,000 hours. All other VFD projects will be calculated as a custom project (see page 10).				
VFD Application (HVAC Fan, HVAC Pump or Process Pump)	HP	Incentive Per HP	Quantity	Incentive Total (HP x Incentive x Qty)
		\$60.00 / HP		
		\$60.00 / HP		
		\$60.00 / HP

## 2017 Energy Smart Commercial & Industrial Program Compressed Air Worksheet

### Compressed Air Worksheet

Measure	Specs	Quantity	\$ / Unit	Total
<b>Compressed Air Equipment</b>				
VSD Air Compressor ( $\leq 300$ HP)	Replacement of constant speed compressor with rotary screw compressor controlled by a VSD.		\$100 / HP	
Refrigerated Cycling Thermal Mass Air Dryer	Available for replacing a non-cycling refrigerated air dryer of equal capacity.		\$1 / SCFM	
Variable Speed Air Dryer			\$1.50 / SCFM	
Dew-Point Sensor Control for Desiccant Dryer	Available for replacing a desiccant dryer without a dew point sensor with a desiccant dryer with a dew point sensor.		\$5 / SCFM	
Engineered Nozzles	A new compressed air nozzle installed on an open pipe or tube.		\$100 / Nozzle	
Flow Controller	The actual air compressor discharge pressure set point must be reduced by 5 psig, must be a minimum of 50 horsepower.		\$1.50 / HP	
Variable Displacement Air Compressor	New variable displacement screw compressor replacing a screw compressor with modulating or load/no load control.		\$35 / HP	
Desiccant to Refrigerated Air Dryer	New externally heated or blower purge air dryer replacing a desiccant dryer. Not allowed on inlet modulating compressors.		\$4 / SCFM	
Heat of Compression Air Dryer	Waste heat from oil-free air compressor used to regenerate desiccant dryer.		\$4 / SCFM	
Compressed Air Storage Tank	Existing system must have less than 3 gal/cfm of storage. New storage tank must offer $\geq 5$ gal/cfm of storage.		\$30 / CFM	
Air Compressor Outside Air Intake	Ducted outside air must provide compressed air supply.		\$8.50 / HP	
Low Pressure Drop Air Filters for Compressed Air	New low pressure drop filter (PSID $\leq 1$ initial differential) replacing a standard coalescing filter.		\$5 / HP	
No-loss Drains – Compressed Air	Replacing manual or timer drains.		\$150 / Drain	

Measure	Specs	Quantity	\$ / Unit	Total
<b>Compressed Air Energy Audit and Leak Reduction</b>				
<p>Incentives are available for <b>the repair of a minimum of 50% of leaks documented in a leak audit</b> of a compressed air system which was performed by a qualified, independent contractor. The leak repairs can be completed by the customer or the contractor. The customer is responsible for presenting pre-approval evidence for needed leak repairs through a qualified compressed air audit and a spreadsheet which details each leak location, estimated leak volume and date of inspection. Upon completion of project, customer is responsible for presenting evidence of completed leak repair through leak repair tags and a spreadsheet detailing location, date of repair, leak volume repaired and person who completed each repair. Leak repair tags are expected to be left in place for a minimum of 30 days should a program personnel request a site visit for a post inspection and repair verification.</p> <p style="text-align: center;"><b>No leak reduction repairs can be started before written pre-approval is received.</b></p>				
Compressed Air Leak Audit <b>AND</b> Repair of 50% of Documented Leaks	See above.		\$15 / HP

LED Grocery Case Lighting	Replace T12 or T8 with LED lighting.		\$35 / Door	
Occupancy Sensor for LED Case Lighting	Sensors which automatically turn on LED cooler lighting when motion is detected.		\$10 / Door	
Walk-In or Case Cooler/Freezer ECM	Replacement of PSC or shaded pole motors with an ECM motor.		\$50 / Motor	
Cooler Strip Curtains	Installation of new curtains isolating a cold storage area.		\$5 / ft <sup>2</sup>	
Freezer Strip Curtains	Installation of new curtains isolating a freezer storage area.		\$25 / ft <sup>2</sup>	
Cooler/Freezer Door Gaskets	Installation of new gaskets to reduce air infiltration on a cooler or freezer door.		\$3 / Linear Foot	
Cooler Night Covers	Vertical covers designed for refrigerated display cases. Incentive is based on linear length of cooler and the time per day covers are used.	Ft	Hr	\$1 / Foot / Hour
Anti-Sweat Heater Controls	Controls which monitor relative humidity and turn off anti-sweat heaters when appropriate.		\$80 / Door	
High Speed Door (Cooler-Dock)	High speed door replacing strip curtains between a cooler space and dock space.		\$15 / Door	
High Speed Door (Cooler-Freezer)	High speed door replacing strip curtains between a cooler space and freezer space.		\$70 / Door	
High Speed Door (Freezer-Dock)	High speed door replacing strip curtains between a freezer space and dock space.		\$145 / Door	

Measure	Specs	Quantity	\$ / Unit	Total
<b>Miscellaneous Equipment</b>				
Vending Machine Controller (For Cold Beverage Machines)	Retrofitting existing vending machines with beverage vending machine controllers. Must include a passive infrared occupancy sensor to turn off fluorescent lights and vending machine systems when surrounding area is unoccupied for 15 minutes or longer. Control logic should power on the machine at a minimum of every 2 hours to maintain proper product temperature.		\$50 / Unit	
Low-Flow Pre-Rinse Sprayer (Electric Water Heat Only)	Low-flow pre-rinse sprayer using less than 1.6 gallons per minute. Must replace a sprayer which uses 2.2 gallons per minute or more. Electric water heat only.		\$25 / Unit	

<b>Commercial Kitchen / Retail Worksheet Incentive TOTAL:</b>	\$
---	----

**Custom Worksheet**

These incentives are available to customers for energy-saving measures that are not covered by the prescriptive portion of the program. Custom incentives are based on the first-year energy (kWh) savings.

<p>When applying for pre-approval of a custom project, you <b>must</b> submit the following items:</p> <ol style="list-style-type: none"> <li>1. Completed and signed Pre-Approval Agreement (page 2)</li> <li>2. Completed Custom Worksheet (below)</li> <li>3. Itemized quote/proposal for all related materials and any external labor</li> <li>4. Manufacturer's specification sheets for all equipment</li> <li>5. Custom calculations detailing the estimated energy savings</li> </ol>	<p>Custom Incentive Rate</p> <p><b>\$0.08 / kWh</b></p>
---	---

Custom Project – Item 1		
Before Retrofit	After Retrofit	Electric Rate (\$ / kWh): \$
		Calculated Annual kWh Savings:
		Project Cost: \$
		Payback Period*:
		Calculated Incentive: \$

\* Payback Period must be greater than or equal to one (1) and less than or equal to eight (8) years to receive the incentive.

$$\text{Payback period} = \frac{\text{Incremental Measure Cost}}{(\text{Annual kWh Saved} \times \text{Electricity Rate})}$$

Custom Project – Item 2		
Before Retrofit	After Retrofit	Electric Rate (\$ / kWh): \$
		Calculated Annual kWh Savings:
		Project Cost: \$
		Payback Period*:
		Calculated Incentive: \$

	<b>Total Custom Measure Cost:</b>	\$
<b>Custom Worksheet Incentive TOTAL:</b> (Cannot exceed 50% of the total custom project cost)		\$

Note: Customer acknowledges and agrees that Customer cannot apply for, nor receive, incentives for the same product, equipment or service from more than one utility unless there are both electric and gas savings.

### Terms and Conditions

1. **Eligibility:** These incentives are offered by your Energy Smart utility to commercial and industrial electric customers installing energy efficient equipment only. For questions regarding eligibility, call 877-674-7281.
2. **Incentive Offer:** Energy efficient equipment subject to incentive from your Energy Smart utility must be installed and operational by November 30, 2017. Applicant has 90 days from the date of the acceptance letter to complete the proposed project. Applications that are not completed within 90 days are subject to cancellation. Additionally, invoice(s) related to the equipment upgrade must be submitted to Energy Smart within 30 calendar days of installation (completion) and no later than November 30, 2017. Please keep a copy for your records. Incentives are calculated based on prescriptive incentive rates and shall not exceed the total cost of equipment, labor, and other associated project costs.
3. **Project Documentation Requirements:** Customer will have to provide your Energy Smart utility with the documentation as listed in the instructions (page 1). If Customer does not provide the required project documents to Energy Smart at pre-approval and payment stages, the project may be disqualified from the program. The project may also be disqualified if pre-approval is not received, unless otherwise noted on the application.
4. **Energy Efficiency Improvement Qualifications:** Increased energy efficiency resulting from peak shaving, demand limiting, or operating schedule changes does not qualify. To qualify, lighting equipment must have a planned minimum usage of 1,800 hours per year. Non-lighting equipment must have a planned minimum usage of 1,500 hours per year. If Customer's equipment does not meet required usage hours per year, an incentive cannot be offered. If Customer has questions or concerns about above qualifications, Customer may contact Energy Smart to discuss.
5. **Incentive Limit:** Prescriptive and Custom project applications may receive or cumulate a maximum of \$3,000 combined per electric meter each calendar year. Incentives for measures can be up to 100% for Prescriptive projects and 50% for Custom projects of the total project cost of a specific measure but shall not exceed the incentives set by the your Energy Smart utility for each measure on the application Worksheet(s).
6. **Compliance:**
  - a. All projects must comply with applicable federal, state and local laws.
  - b. All equipment must be new or retrofitted with new components.
  - c. The purchase and installation of used equipment is not eligible for incentives. Existing equipment must be removed and/or permanently disconnected.
  - d. Equipment must meet specification requirements as defined in application Worksheets and Equipment Guidelines.
7. **Payment:** Approved Final Applications will receive payment within 45 calendar days of signed payment approval. Incomplete applications will either delay payments or result in denial of application approval. Your Energy Smart utility reserves the right to refuse payment and disqualify Customer from participating in the program if the customer or their contractor violates any program Terms and Conditions. The qualified equipment must be installed and operating for the rated life of the product(s) or for a period of three (3) years from receipt of rebate, whichever is more. If the qualified equipment is removed or replaced with less efficient equipment, or if Customer ceases to be a customer of your Energy Smart utility during the three (3) years, Customer shall refund a prorated amount of rebate dollars based on the time installed within thirty (30) days of receipt of notice from your Energy Smart utility.
8. **Inspection:** Energy Smart staff may conduct inspection(s) of the project site to survey existing conditions and/or newly installed equipment.
9. **Publicity:** Your Energy Smart utility reserves the right to publicize Customer's participation in this program, unless Customer specifically requests in writing otherwise.
10. **Program Discretion:** Incentives are available on a first-come, first-served basis. Incentive amounts and offerings are subject to change and/or termination without notice and at the discretion of your Energy Smart utility.
11. **Disclaimers:** Your Energy Smart utility:
  - a. does not endorse any particular manufacturer, product, labor or system design by offering this program;
  - b. is not responsible for any tax liability imposed on the customer as a result of the payment of incentives. Your Energy Smart utility is tax exempt;
  - c. does not expressly or implicitly warrant the performance of installed equipment or contractor's quality of work (contact your contractor for detailed warranties);
  - d. is not responsible for the proper disposal/recycling of any waste generated as a result of this project;
  - e. is not liable for any damage caused by the installation of the equipment and/or for any damage caused by the malfunction of the installed equipment.
12. **Indemnification:** Customer shall, to the fullest extent permitted by law, indemnify and hold harmless your Energy Smart utility, and their officers, agents and employees harmless from and against all losses and litigation expenses arising out of or resulting from the performance of work hereunder and caused, in whole or part, by any act or omission of Contractor. Your Energy Smart utility shall further be entitled to all cost (which include both internal and external) incurred in the process of enforcing this or any other provision under this Agreement. This provision is not intended and is not to be construed as a waiver of the defense of governmental immunity otherwise available nor is it construed as a waiver of the defense of governmental immunity otherwise available nor is it intended to grant third party beneficiary status to any person or entity.
13. **Governing Law:** This agreement is construed in accordance with Michigan law, without regard to conflict of laws, provisions, and venue is in Ottawa County, Michigan.
14. **Intellectual Property:** No rights in copyright, patents, trademarks, trade secrets, or other intellectual property are granted to contractor and/or subcontractor except as expressly provided under these Terms. Contractor and/or subcontractor will not register or use any mark and/or internet domain name that contains any Energy Smart intellectual property.
